Premier Venizelos, of Greece, is a native of the island of Crete. 10. A lappas linguas is a species of the cereus plant which blooms at night.

THE NEW YORK DRAFT RIOTS

The inscription act of March 3, 1916, contained one clause which cost the lives in New York city four months later. It was provided that any man, after being drafted, might procure exemption from service by the payment of \$300.

The riot was vigorously assailed as unconstitutional by the opponents of the Administration, who asserted that the exemption clause was a flimsy device for enabling the rich to evade service. About the city, frenzied by excitement, views was Governor Seymour, of New York State, who seems also to have represented the attitude of many prominent men in New York city. Among the people the average drafted man could not get \$300 to procure a substitute. It was indeed, only the rich who could afford to buy the freedom from military service.

On Saturday, July 11, the draft was without much opposition in New York city. One of the enrollment offices in the streets was Democratic Ninth District. On Sunday, however, the riotous element, fomented by a number of political agitators, fomented the content of the populace and organized opposition to enrollment. The draft was renewed at 10 o'clock Monday morning. The riotous element, fomented by a number of political agitators, fomented the content of the populace and organized opposition to enrollment. The draft was renewed at 10 o'clock Monday morning. The riotous element, fomented by a number of political agitators, fomented the content of the populace and organized opposition to enrollment. The draft was renewed at 10 o'clock Monday morning.

Our correspondent now informs us that they appeared in an article of "Tennyson's Suppressed Poems" in Harper's Monthly Magazine, December, 1912. Originally they were part of the poem afterward published under the title "Halls All Round." The earlier version, signed "Merrin" appeared in the Examiner, February 19, 1850—London Observer.
